### FRONT GATE DIRECTORY

When your visitor drives up to the front gate they will find you in the directory by your name and call you from the directory. When they do AND DIAL YOU FROM THE DIRECTORY, that will ring your phone. You answer and you will hear your visitor but you will also know it is coming from the front gate by seeing the number 601.856.3865 on your phone. Then On your phone keypad you will enter \*009. If that doesn't work just enter 9 or 009 or #009. It works differently for different phones. \*009 works for my cell. The gate will open and your visitor will be able to get in. It is best to make them ring you from the directory so that the giving out of our manual gate code does not decrease our security.
